**LOS ANGELES** – Brot & Gross, LLP, a Los Angeles-based family law firm known for handling high-conflict and complex matters, is pleased to announce the addition of seasoned litigator Gary Fishbein as a partner, changing the firm’s name to [Brot•Gross•Fishbein•LLP](#). Fishbein has practiced family law exclusively since 1980, handling a range of matters involving dissolution and paternity actions, high-conflict child custody cases, and representation of high net-worth clients in complex financial matters regarding support and marital assets.

“Having Gary join our ranks will not only complement our well-established group of litigators, he will be a tremendous asset for clients with his nearly 40 years of experience,” said Senior Partner [Ronald F. Brot](#), who co-founded the firm with Senior Partner [Mark P. Gross](#) in 2005, combining their decades of experience and expertise to launch their own family law practice.

Gross added, “We are thrilled to welcome another attorney of his caliber to the partnership. Gary brings tenacity, passion and a fearlessness that clients trust in navigating them through one of the most difficult times in their lives.”

“I’ve known Ron and Mark for a long time, and I’ve always thought of Brot & Gross as a high-quality law firm that mimics my approach to the practice of law – zealous advocacy on behalf of clients,” said Fishbein. “I’m happy to be joining a firm that is known not only for its successes, but also for its integrity.”

Fishbein, previously a partner with Buter, Buzard, Fishbein & Royce, LLP, also has significant expertise in relocation/move-away cases within the United States and foreign countries. He has served as a Judge Pro Tem and mediator through the Los Angeles County Superior Court, and as a member of the Executive Committee of the Family Law Section of the Los Angeles County Bar.

Known for tenacious courtroom advocacy and skilled negotiations throughout Southern California, Brot•Gross•Fishbein•LLP has earned the respect and trust of the family law bench officers.
